BLAST MANAGEMENT INTERNATIONAL invites
Drill and Blast Staff to attend the forthcoming
Manage Drill and Blast Operations Masterclass

This intensive five day course will provide successful attendees with the following nationally recognised units of competency

RIIBLA601E Design Blasts

In partial completion of RII50109 Diploma of Surface Operations Management

RIIBLA602D Establish and Maintain a Blasting System

In partial completion of RII60113 Advanced Diploma of Metalliferous Mining

RIIBLA401D Manage Blasting Operations

In partial completion of RII40113 Cert IV in Surface Extraction – Operations

RIIBLA402D Monitor and Control the Effects of Blasting on the Environment

In partial completion of RII40113 Cert IV in Surface Extraction – Operations

These units of competency are recommended for current Drill and Blast Engineers, Superintendents, Supervisors and Senior Shotfirers wishing to increase both their design and management skills¹.

Note this class is not suitable for persons without comprehensive drill and blast experience in either an engineering or operational role.

Course assessment is by completion of classroom and online components and by assignment submission.

Class size is limited to eight persons on a first come basis.

Course leader is Peter Duniam BE. MPM. Director of Blast Management International with over thirty years industry experience.
